

Mortgage fraud, including application and financial misrepresentation, continues to climb.

Now you can leverage technology to help detect and prevent mortgage fraud. Tax Return Verification Reports from Credit Plus, Inc. provide the information you need to assure lenders that original IRS data has not been manipulated. Our Tax Return Verification system verifies a borrower's income with what's on file at the Internal Revenue Service (IRS).

## Fully electronic for faster reports.

Credit Plus is one of the first companies in the industry to offer fully electronic order and delivery of any Tax Return Verification service. This simplified system enables customers to get the information they need quickly.

"We have been utilizing Credit Plus' Tax Return
Verifications to help identify non-disclosed items
such as self-employment and unreimbursed business
expenses. For over a year, we've been pulling
Tax Return Verifications for 100 percent of our
loans for fraud control and verification."
